

STEEL SHELVING

Everything that you need for your SMART STORAGE

STEEL SHELVING is a versatile storage solution designed to store small to medium sized load. The high- quality steel build and powder coated finish ensures a sturdy and professional look to suit any storage application. Our modular design enables ease of installation and expansion as the needs change. The system is designed to handle light to medium SKUs up to 330 LB per level which can either be in stored in bins, cartons or directly. Our main goal is to provide a strong and sturdy storage system thereby increasing the storage efficiency by utilizing vertical space. It is an easy-to-assemble system with an innovative design that can be used versatilely in warehouses, offices, showrooms and homes.

APPLICATION

Engineering stores small.

Parts warehouse.

Packing material auto.

Archival storage.

Merchandise display.

Record storage tool.

Storage utility.

and more.

ADVANTAGE

Modular sturdy.

Easy to clean.

Rust and corrosion resistant.

Add on units easily.

FEATURES

- ✓ Modularity through a wide range of components Flexibility to be configured to any size best suited to the available height and layout.
- ✓ Design capability to offer the most effective solution for any load / dimensions (SKUs).
- ✓ Designed to meet specific requirement with capability to handle load per level up to 330 LB.
